Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 17 and 135 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The amendment to claims 1 and 119 has added the language "two or more operations" and "the operations comprising cleaning the seed and sorting the seed." These statements make claims 1 and 119 narrower in scope than claims 17 and 135. Claims 17 and 135 should be canceled or amended such that they are consistent with the language of independent claims 1 and 119 and also such that they provide a further limitation to the claims from which they depend.

2. Claim 1 is also objected to because of the following informalities: in line 12 "the operation" should say "the operations". Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 4-6, 8-25, 119, 122-124, 126-143 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a

Art Unit: 3653

way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 and 119 both contain the language "without an individual container for each set or monitoring a physical location correlated to a pre-defined physical space coordinate system." As set forth in MPEP 2173.05(i) "any negative limitation or exclusionary provision must have basis in the original disclosure" and "the mere absence of a positive recitation is not basis for an exclusion." Examiner contends that the negative limitations set forth in claims 1 and 119 are not supported by the applicant's original disclosure and thereby claims 1, 119 and all claims depending therefrom are rejected.

Response to Arguments

5. Applicant's arguments with respect to all of the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
